### MARK AND SUE SAID,

"We have worked very hard to build our business over the last 10 years enabling us to offer a true family owned and managed service. We provide the commitment to all the families that we have been entrusted to serve. It was certainly a nice surprise for us to be given this recognition, and we are very proud of this achievement and this makes both of us very humbled and honoured. The Funeral Planning Services sent out a customer survey, and the responses they received over the course of last year demonstrated that people are very happy with the high level of quality and service care they received from us.

We have always said that we are only as good as our staff, and that also shows the respect and commitment they have for the families we serve. We could not have achieved this without their support.

We have always tried to offer our families the highest quality of service and will continue to do so. This award makes it all worth while for us.
